1. Introduction

Seated at the intersection of faith, technology, and philanthropy, Jesus Coin is a new chapter in the world of decentralized tokens. It's a pioneering project that intertwines the innovation of blockchain technology with the enduring values of Christianity to redefine philanthropy as we know it.

In a world torn apart by social, political, and moral challenges, Jesus Coin will bridge the chasms through unity and compassion. To that end, the tokenomics of the project are uniquely designed to drive charity without burdening any single individual or party.

Where other tokens inflict up to double-digit taxes on all transactions, this novel token will charge a fraction of a percentage and use it wholly to fund noble causes throughout the world.

By transcending the traditional barriers of geography and demography, Jesus Coin is an opportunity for all believers to embody the teachings of Jesus in a tangible, impactful way through the frictionless world of decentralized finance.

2. Current Social & Nonprofit Challenges

The world today faces many social and geopolitical issues. These include but are not to racial issues, regional wars, LGBTQ rights, and the dilemma of Faith. The result of these issues is reflected in the social divisions and tensions palpable in modern society.

At the same time, organizations hoping to bridge those gaps find themselves face-to-face with extraordinary challenges. To demonstrate the harsh ground realities faced by today ' s donors and nonprofits, three major challenges are listed below:

1. Online Donations: Nothing beats the ease and accessibility of online donations. As such, most donors prefer the option of digital giving. This is particularly true for more fortunate givers, as 51% of donors with incomes of \$200,000 and above showed a strong preference for online transactions. In stark contrast, a recent survey of charities showed that two-thirds of them were ill-equipped in the digital age and feared missing out on the online charitable sector.

2. Limited Reach: Attention is the most precious currency of the digital age. Unfortunately, this means that nonprofits are especially at a disadvantage when profit-driven enterprises eat up all the online advertising inventory. In 2021 alone, nonprofits saw a 19% rise in their digital ad bills, and this hefty premium continues to rise with each passing year. Each dollar lost to advertisement is a dollar that could have helped someone in dire need of it.

3 . Geographical Shifts: Where seven out of the ten most generous countries used to be high-income, highly developed nations in 2018, the world has witnessed a major shift over the trailing few years. Last year ' s list of most charitable countries reflected this unmistakably, as low- and middle-income nations such as Kenya, Zambia, and Ukraine made up the bulk of that list. This pronounced shift underscores the importance of global charity and nonprofit solutions—as some of those residents may not have access to the conventional payment options that we take for granted.

3. Our Solution: Jesus Coin

By marrying the global accessibility and trustless economy of blockchain technology with the tenets of Christian giving, we are proud to announce our vision for Jesus Coin. This blockchain-powered digital token will bring the many wonders of decentralized finance to all citizens of Earth without any biases or restrictions. At the same time, every single transaction will contribute directly to the community donations wallet through a small 0.7% tax. These funds will be donated in entirety to worthy causes all across the globe.

Jesus Coin is committed to global charity activities, including but not limited to:

- Buying food and school supplies for children in Gaza
- Digging wells for poor areas in Kenya
- Assisting the lowest caste people in India
- Donating to children in mountainous areas of China
- Helping the homeless in the United States

With Jesus Coin, the love of Christ has become our common bond, calling on Christians all around the world to stir up the fire of faith, influence the world, and save more souls. No matter where you come from, what your race is, or what your faith is, the love of Jesus is all-encompassing. The Jesus Coin is a vehicle to spread this love.

4. Advantages of Our Approach

1. Global Currency: Jesus Coin will be open to a global user base with one of the most competitive transaction taxes—a mere fraction of a percent. With the crypto donations segmented forecasted to reach \$10 billion in the coming years, Jesus Coin will be perfectly positioned to drive change for good.

2. Transparent Donations: The finances are handled by a accountant, and we will publish expenditure details on the official Twitter and all community channels every 7 days. This will ensure all proceeds from the 0.7% sales tax are used for charity and charity alone. People can check the whereabouts of each donation, and the donation process will also be posted on our social media. Our accounts will always be open and transparent.

3. Worldwide Community: Through the global recruitment of volunteers, we will build a strong community force and contribute to the broader social well-being. We will accomplish our mission of charity in a decentralized manner and follow the teaching of Matthew 6:3 , “ But when you give alms, do not let your left hand know what your right hand is doing. ”

4. Sound Tokenomics: Jesus Coin leverages supply-and-demand dynamics to encourage value appreciation of this asset for all holders. This will be achieved through a strategic burn mechanism where 7% of all tokens will be burned every year on the 25th of December. At the same time, the team wallet will be restricted to 0.7% of the total supply.

5. Tokenomics

NAME

JESUS COIN

SYMBOL

JESUS

700,000,000,000,000

TEAM HOLDING

0.7% OF TOTAL TOKENS

TYPE

DEFLATIONARY

BURN RATE

7% (DECEMBER 25TH)

TAX RATE

0.7% (ON ALL BUYS AND SELLS)

6. Marketing Strategy

Jesus has two billion followers around the world . We hope to achieve stable growth in the value of the token by gathering all believers. Jesus Coin also welcomes people of different religious beliefs to participate and contribute to our collective charity activities. We believe in rewarding communities around the world who participate in philanthropy, and their good deeds will be encouraged and supported throughout our project. Furthermore, We will be making Jesus Coin labels, and we will also provide clothing and hats with the Jesus Coin logo to volunteers. Details of each charity event will also be released on the official Twitter account, and the rest of the community too.

Charity is not our promotional strategy — it is our purpose.

7. Roadmap

TO DRIVE GLOBAL AND SUSTAINABLE GROWTH, THE PROJECT WILL BE ROLLED INTO TWO PHASES, NAMELY FOUNDATION AND EXPANSION.

Phase 1:

- **Channels Setup:** Open digital channels of communication for all interested parties. The list will initially include an official website along with social media platforms such as Twitter.
- **Coin Issuance:** Launch the initial token following the setup and review of the smart contract.
- **Community Promotion:** Engage with faith-based communities and crypto enthusiasts through social media, web forums, and many faith gatherings.
- **Initial Charity Activities:** Start with small-scale charity events to demonstrate the token 's charitable impact. Weekly updates on Twitter and other channels will accompany these activities.

Phase 2:

- **Expanding to Centralized Exchanges:** While listings are at the sole discretion of each centralized exchange, the team will undertake broad efforts to maximize visibility and trading volume for Jesus Coin through these mainstream exchanges.
- **Bible Character NFT:** All the major characters from the Bible will be immortalized by turning their likeness into a decentralized non-fungible token (NFT).
- **Global Charity Initiatives:** Expand charity activities to a global scale, marked by partnerships with international faith-based organizations for greater impact.

8. Disclaimer

Given the novelty of this project and the general volatility of crypto currencies, all interested parties are encouraged to approach this opportunity with all the necessary due diligence warranted by such ventures. As with any financial decision, prudence and caution are of the utmost priority.

We are committed to transparency and integrity in our journey towards a global future of faith-based crypto currencies. As such, we advise all participants to consider their decisions carefully, in line with their financial goals and risk tolerance.
